South Borneo, Indonesia

ABOUT ME

An experienced **Full-Stack** and **Android Software Engineer** proficient in **HTML, CSS, JavaScript, TypeScript,** and frameworks like **React Native, React.js, Express.js, Next.js, VueJs, NuxtJs,** and **Angular**. Skilled in **MongoDB, MySQL,** and **Git**. Excels in **crafting clean, efficient code** and **bridging front-end design** with **robust back-end functionality**. Dedicated to high-performance solutions and team collaboration. **Currently managing 30+ repositories on GitHub**, demonstrating commitment and diligence.

WORK EXPERIENCE

Front-End Developer   **August 2023 – Present**
Personal, Indonesia

- **HTML, CSS, JavaScript/TypeScript**: Developed and maintained efficient front-end code, enhancing application performance and accessibility.
- **Frameworks**: Proficient in ReactJS, NextJs, VueJs, Angular, and NuxtJs, successfully implementing advanced features for optimal user experience.
- **Styling**: Utilized Tailwind, Sass, Material UI, and shadcn for responsive and consistent design, ensuring high visual quality.
- **Version Control**: Used Git for effective version control and CloudPanel for secure and rapid deployment.
- **Authentication**: Implemented secure front-end authentication systems, improving user data security and integrity.

Back-End Developer   **October 2023 – Present**
Personal, Indonesia

- **NodeJS, ExpressJS**: Developed scalable server-side applications, ensuring high performance and system reliability.
- **Database Management**: Efficiently managed MySQL and MongoDB, optimizing database performance and consistency.
- **API Development**: Designed robust RESTful APIs, ensuring seamless integration between front-end and back-end, as well as external services.
- **Security**: Implemented strong authentication and authorization, protecting applications from threats and ensuring data security.
- **Version Control**: Used Git for efficient version control and CloudPanel for smooth and rapid automated deployment.

PROJECT EXPERIENCE

Booking.com Clone   **June 2024 - July 2024**
Full-Stack ReactJs and ExpressJs

- **Secure Authentication**: Strong register and login features ensure that users' privacy data is well-protected.
- **Comprehensive Hotel Search and Filter**s: Users can easily search for hotels based on their preferences, such as star rating, price, amenities, and room type.
- **Flexible Booking**: Users can book hotels according to their desired dates, providing flexibility in travel planning.
- **Stripe Payment Integration**: The Stripe payment gateway ensures secure and efficient transaction processing.
- **URL**: https://github.com/Juaini742/cloning-booking.com.git

E commerce Application   **May 2024 – June 2024**
Full-Stack Angular and ExpressJs

- **Authentication System**: Engineered a secure user registration and login system, establishing trust and ensuring data integrity.
- **Payment Gateway Integration**: Implemented a seamless payment gateway using Stripe, ensuring secure and efficient transactions.
- **Frontend-Backend Integration**: Enabled seamless communication between Angular frontend and ExpressJS backend.
- **RESTful API Development**: Created APIs for reliable data exchange and functionality across the application.
- **URL**:https://jacketid.vercel.app

E comerce Native Application   **April 2024 – May 2024**
Full-Stack React-Native and ExpressJs

- **Authentication System**: Engineered a secure user registration and login system, establishing trust and ensuring data integrity.
- **Product Catalog Management**: Integrated backend and frontend for detailed product listings, enhancing the shopping experience.
- **Category Filtering**: Implemented intuitive product categorization for effortless navigation and improved user engagement.
- **Shopping Cart Functionality**: Developed a feature-rich cart module for seamless item management and checkout process.
- **Repository**: https://github.com/Juaini742/FOODI-react-native.git,

EDUCATION

Sapta Mandiri Institiute of Technology   **2019 - Present**
Bachelor in Information Engineering

SKILLS

- Programming Skill: HTML, CSS, Tailwindcss, Javascript, Typesctipt, NodeJs, ReactJs, React-Native, ExpressJs, NextJs, VueJs, NuxtJs, Angular.
- Database: MongoDB, MySQL
- Software Skill: Git, Visual Studio Code, Cursor, MySQL Workbench, Postmen, XAMPP, Andriod Studio, CloudPanel

CERTIFICATIONS

Full-Stack Javascript Developer   **January 2024**
Harisenin.com, (GPA): 3.90
